## COVID-19 UPDATE

### WHAT YOU NEED TO KNOW NOW

On March 18, 2020, the U.S. Congress passed its second coronavirus relief measure, the [Families First Coronavirus Response Act](#).

#### Families First Coronavirus Response Act

Effective immediately, the Act requires group health plans and health insurance issuers to cover COVID-19 testing without imposing any cost sharing (such as deductibles, copayments or coinsurance) or prior authorization or other medical management requirements.

#### Coverage Mandate

This coverage mandate applies to the following health plans and issuers, regardless of grandfathered status under the [Affordable Care Act](#) (ACA):

- ❖ All fully insured group health plans
- ❖ All self-insured group health plans
- ❖ Health insurance issuers offering group or individual coverage

During this public health emergency, health plans and issuers must cover FDA-approved diagnostic testing products for COVID-19, including any items or services provided during a visit to a provider, urgent care center or emergency room that relate to COVID-19 testing.

This coverage mandate does **not** require health plans and issuers to cover COVID-19 treatment at no charge. Exact coverage details for COVID-19 treatment, including any cost-sharing amount, will vary by plans.

### TAKEAWAYS

**Employer-sponsored group health plans must cover COVID-19 testing, without imposing any cost-sharing.**

**This mandate applies to fully insured group health plans and self-insured group health plans, regardless of size.**

**HDHPs can provide first dollar coverage for COVID-19 testing and remain HSA-compatible.**

---

#### HDHPs

*The IRS has advised that high deductible health plans (HDHPs) can pay for COVID-19 testing and treatment before plan deductibles have been met without jeopardizing their status. According to the IRS, the individuals who are participating in these plans may continue to contribute to their HSAs.*
